Low Corn King Wide Spread From a Narrow Box

THE Low Corn King is the real spreader success of the year. At the San Francisco Exposition, the Low Corn King won a Grand Prize, the highest possible award.

You want a spreader that is narrow; not clumsy, wide, and hard to handle. You want it to pass through tight places when necessary, to go in barn doorways for easy loading, narrow for easy handling in your fields. Still, you want a real wide-spreading spreader, that will cover a double strip evenly, so as to cut in half your unloading time and traveling distance.

Here is the answer: The Low Corn King has a box only 45 inches wide, yet it spreads the manure in a finely pulverized strip 8 feet wide or better. Come in and see for yourself. You cannot be disappointed.

Says About

Preserving a Young Appearance

In scores and scores of cases wearing glasses is one of the best preservers of a youthful appearance because the prolonged eye-strain causes wrinkles and "crows feet" to appear prematurely and give the countenance a strained, anxious, tired, drawn, cross look, which is far more to be avoided, from the point of appearance than from any real or fancied disfigurement of glasses.

I use particular care in fitting glasses, and in the selection of mountings most becoming to each person's individual style of beauty.

If you need glasses, or if those you now wear do not become you, call and let me show you what a difference a little intelligent thought and understanding will make.

Wearers of Walk-Over Shoes can give thought and attention to Style, when buying Shoes. The question of comfort has already been worked out for them.

When a man admires a pair of Shoes that he sees in the window, then comes in the store and tries them on, it's a pleasure to watch the satisfaction creep over his face as he rests his weight on them and finds they are COMFORTABLE.
